SAFETY AND WARNING

Important operating and maintenance instructions.

Read the accompanying text carefully.

Potential Electrical Hazards

- Only qualified persons should perform procedures associated with this symbol.
- Equipment being maintained or serviced must be turned off and locked off to prevent possible injury.
- Please make a note that temperature is already set to a default value of 37°C.
- Water Bath starts from the ambient value.
- Handle with care while traveling.

CAUTION

- On long hours of usage the water bath top surface will get hot.
- Do not operate the equipment unattended for long hours.
- The hot surfaces may cause burns to unprotected skin or to materials which may be damaged by elevated temperatures.
- The ceramic wool emits fumes in the first few hours of operation ensure proper ventilation during the first 15 minutes of usage.
- Always use proper protective equipment. (Clothing, gloves, goggles, etc.)
- Always follow good hygiene practices.
- Each individual is responsible for his or her own safety.
- Drain the water from the tub after the temperature cool down to ambient.

SAFETY INSTRUCTIONS

- Do not run the unit without water.
- Do not check the water temperature by bare hand.
- Do not keep unit on wet bench top.
- Do not wash the unit with water. Just clean the surface by wiping.
- Safe working practices should be encouraged while working with the water bath.
- Always use safety glasses while working with water bath.
- The unit should be plugged to standard 230V, 3 Pin, 5A power socket having proper earthing.
- Check whether current is flowing in the body by using a testing device.
Do not touch the unit by bare hands.
- If the water spills on the control box, do not operate the unit.

WARNING:

Inadequate earthing at the installation facility can lead to hazardous electrical shocks. The manufacturer is not liable for any injury or death resulting from electrical hazards due to faulty earthing in the lab.

UNBOXING OF THE PRODUCT

UNBOXING INSTRUCTION:

1. Remove Operating manual, Power cable.
2. Remove the Water Bath unit with bag safely.
3. Post unpacking the unit, if any damage is found, please report to the dealer/delivery agent.

(Read manual before use.)
